

Crypto Basics Introduction

Welcome to your Crypto Basic course.

The Crypto Basic course is intended to give you a first insight into the crypto world. We designed the videos so that everyone can understand them!

We want to be your Web3 companion and this course is the beginning.

The CryptoBasics course consists of the following modules:

1. Facts and background
2. Blockchain
3. Coins
4. Important terms

Building on this, further courses on crypto exchanges, wallets, building wealth with cryptocurrencies, making money with cryptos, metaverse, NFTs and many more will follow.
