

## **Cryptocurrency categories**

There are many different crypto categories.

Here we show you 7 main crypto types.

Before investing, you should familiarize yourself with the categories in which you want to invest:

1. Coins: Crypto currencies with their own blockchain e.g. Bitcoin, Ethereum, Cardano
2. Smart Contracts: e.g. Ethereum, Solana, Cardano
3. Exchange tokens: these have their own exchange: Binance BNB, Cronos (Crypto.com), FTX Token (FTT).
4. DeFi tokens: e.g. Uniswap, Pancakeswap
5. Stablecoins: Imitate the value of fiat currencies (e.g. EUR, USD) - USD Coin, Binance USD, Tether (USDT)
6. Meme tokens: Shiba Inu, Dogecoin
7. NFT tokens: Axie Infinity, Decentraland, Sandbox

Be sure to watch the videos for each coin and do your own research before investing.
