

Opening hours cryptocurrencies

Opening hours in the crypto area are very special and also offer a great advantage over traditional opening hours.

The crypto exchanges are open 24 hours a day, every day of the year – whether it's Saturday, Sunday, holidays like Christmas... They are always open and you can trade cryptocurrencies at any time of the day or night from anywhere in the world.

With stock trading, on the other hand, you are e.g. aware of the opening times of the stock exchanges, which vary greatly locally. For example, if you try to sell shares on Saturday, you will receive the message that the stock exchanges are currently closed. That no longer exists in the crypto space and is also considered one of the biggest advantages for cryptocurrencies.

Conclusion: You can buy, sell, invest, exchange, wear and much more cryptocurrencies anywhere in the world at any time.
